

Associate Principal Investigator Scheme

The RePHyNe study has joined the NIHR Associate Principal Investigator Scheme

The Associate Principal Investigator (PI) Scheme is a six month in-work training opportunity, providing practical experience for healthcare professionals starting their research career.

People who would not normally have the opportunity to take part in clinical research in their day-to-day role have the chance to experience what it means to work on and deliver a NIHR portfolio study under the mentorship of an enthusiastic Local PI.

Healthcare professionals receive formal recognition of engagement in NIHR Portfolio research studies through the certification of Associate PI status, endorsed by the NIHR and Royal Colleges.
